

Name _____ **Geography of Africa**

Directions: Use the maps/information on pages 140-141 of the textbook to complete the tasks below.

1. Locate the ocean that borders Africa on the west. Label this ocean on your map.
2. Locate the ocean that borders Africa on the east. Label this ocean on your map.
3. Locate the sea that borders Africa on the north. Label this sea on your map.
4. Locate the sea that separates Africa from the Arabian Peninsula. Label this sea on your map.
5. Locate the four regions of Africa (see inset map on p. 140). Label these regions on your map.
6. Locate the Sahara Desert, Kalahari Desert, and the region known as the Sahel. Label these on your map.
7. Label the following rivers on your map: Nile River, White Nile River, Blue Nile River, Senegal River, Congo River, and Niger River.
8. Locate the largest lake in Africa. Label it on your map.
9. Locate Africa's tallest mountain (which is 19,430 feet tall). Label it on your map.
10. Label the Atlas Mountains on your map.
11. Label the Great Rift Valley on your map.
12. Go to page 149 of the textbook. Using the map as an example, you will label and color the location of the following kingdoms on your map: Ghana, Mali, and Songhai. To do this you will need three different colored pencils. Shade lightly so that your map is easy to read.
